

Klaw

Concentrated Degreaser and Tar Remover

Clings to the surface until grease, oil, tar, road film and asphalt is removed

- Deep penetrating cleaning action
- Economical- Dilutes with water
- Thickens with water
- Does not contain Trichloroethylene

FEATURES AND BENEFITS

PROBLEM - Vertical Surfaces

SOLUTION - **KLAW** emulsifies and clings to vertical surfaces for heavy duty cleaning.

PROBLEM - Greasy build up

SOLUTION - **KLAW** dissolves the toughest oil, grease, tar and grime. Requires little or no scrubbing

PROBLEM - Runs off surfaces

SOLUTION - **KLAW** will not run off before the job is done. It cleans better with less waste.

Klaw

Concentrated Degreaser and Tar remover

AREAS OF APPLICATION

- Industrial equipment and machinery
- Heavy traffic walkways
- Floors, walls and ceilings

DIRECTIONS

1. Dilute KLAW concentrate with water up to 1: 4. For best consistency, always add water to the concentrate.
2. Shake mixture vigorously to achieve a thickened and uniform mixture.
3. Spray , mop or brush in to surface being cleaned
4. Let mixture stay on surface for 5-10 minutes. Rinse with water or a high pressure washer.

REMARKS:

- Not recommended for use on vehicle body work

- Consult the product label for full instructions and precautions before using this product.
